

21 May 2019

**67th International Congress of Aviation and Space Medicine
8-12 September 2019, Debrecen, Hungary**

Dear Colleagues

It is my great pleasure to invite you to participate in the 2019 International Congress of Aviation and Space Medicine (ICASM) to be held in Debrecen, Hungary during 8-12 September. For those who have not participated in an ICASM before I extend an especially warm welcome.

The theme of the Congress this year is “Beyond Limitations”. If you are considering the submission of an abstract for an oral or poster presentation at an internationally recognized scientific meeting, our scientific committee for Debrecen would be delighted to hear from you. The Congress will provide a certificate of attendance to participants that can be used for Continuing Medical Education purposes – typically up to about 20 CME credits.

If you have any questions about the Congress (e.g. registration, accommodation) please refer to the Congress website: <https://icasm2019.com/>. Early bird registration (600 Euros, approx. US\$ 670) is available until 11 June and as well as providing full access to the scientific sessions, also includes the welcome reception, gala dinner, lunches and technical tour.

We anticipate an excellent Congress in Debrecen and I hope to see you there!

Yours sincerely

Dr. Melchor J Antuñano
President
